Problem Statement

Engro Foods required a BI solution to support its daily business needs of intelligent reporting and real-time business insights, and currently evaluating number of technologies with their parameters to choose what is best to fit its current environment. They required such a solution that was secured, extendable and user-friendly.

Solution

Inseyab provided a POC on two out of the best technologies that best fit Engro's needs using Microsoft BI stack and MicroStrategy technologies, Engro Foods intends to evaluate the concept with the technology that is up-to-date following BI standards and methodologies.
