

CUSTOMER SUCCESS STORY

NESMA & PARTNERS

Nesma and Partners Contracting Co. Ltd. is the engineering and construction division of Nesma Holding Co. Ltd. It has been a contributor to Saudi Arabia's industrial and infrastructure sectors since 1981 with reliable, multi-dimensional construction services. Currently, Nesma and Partners is a recognized leader in the fields of oil and gas, petrochemicals, and power and water sector.

Problem Statement

Nesma and Partners had some power users which they needed to integrate with Active directory Furthermore, they needed analysis on their local data from SQL Server Data warehouse on the cloud. In addition, analysis was also required for present data to get insights in terms of relevant dashboard.

Solution

Inseyab carried out the aforementioned requirements as follows:

- Integrate Active Directory for Power BI users
- Link on-premise, local data underneath SQL Server DW to Microsoft Cloud for analytics needs
- Dashboard development

As it was an offsite activity, so firstly data was sourced from various internal systems containing data regarding construction projects, suppliers and receivables and then worked together with NESMA Team hand in hand, and in the same session, our consultant(s) setup remote access as well. Meaningful and insightful dashboards were developed
